LEGEND

El Cajon Valley High School
El Cajon, California
Volume XXJ

A large group of students and staff are posed on a grassy field in front of a school building. The group is arranged in many rows, with some students standing and others sitting or kneeling in the front. The background shows a school building with a large tree in front of it, and a hillside with trees in the distance. The sky is clear and blue.

*"This nation cannot exist on its splendid
past; it must have a splendid present or
it will have no future at all."*

Herman Hagedorn

As we approach our nation's Bicentennial, we tend to look back at our country's splendid past. The foundation of our heritage is the flexibility of our constitution, our leaders, and their ability to change.

As a nation we have experienced change at its fullest-- from thirteen rather disunited colonies in 1776 to the most powerful nation in the world in 1976.

"Change is no modern invention. It is as old as time and as unlikely to disappear."

James Rowland Angell

Change never disappears; we are able to see it around us in all areas of life. We all experience change and by our own choices we can allow these changes in our lives to be as beautiful as the metamorphosis of the butterfly.

"Is this the little boy at play? I don't remember growing older, when did they?"

Taken from FIDDLER ON THE ROOF by Joseph Stein.
(C) 1964 by Joseph Stein. Used by permission
of Crown Publishers, Inc.

Change is also experienced in a personal way. Not only does it occur around us but it occurs inside of us too. Youth is a time of searching--searching for values and purpose in life. In our search we experience change and growth both physically and mentally. Most of what we value in life will be formulated by the time we complete our high school years.

It is up to each of us to measure and evaluate the changes that we see in our lives.

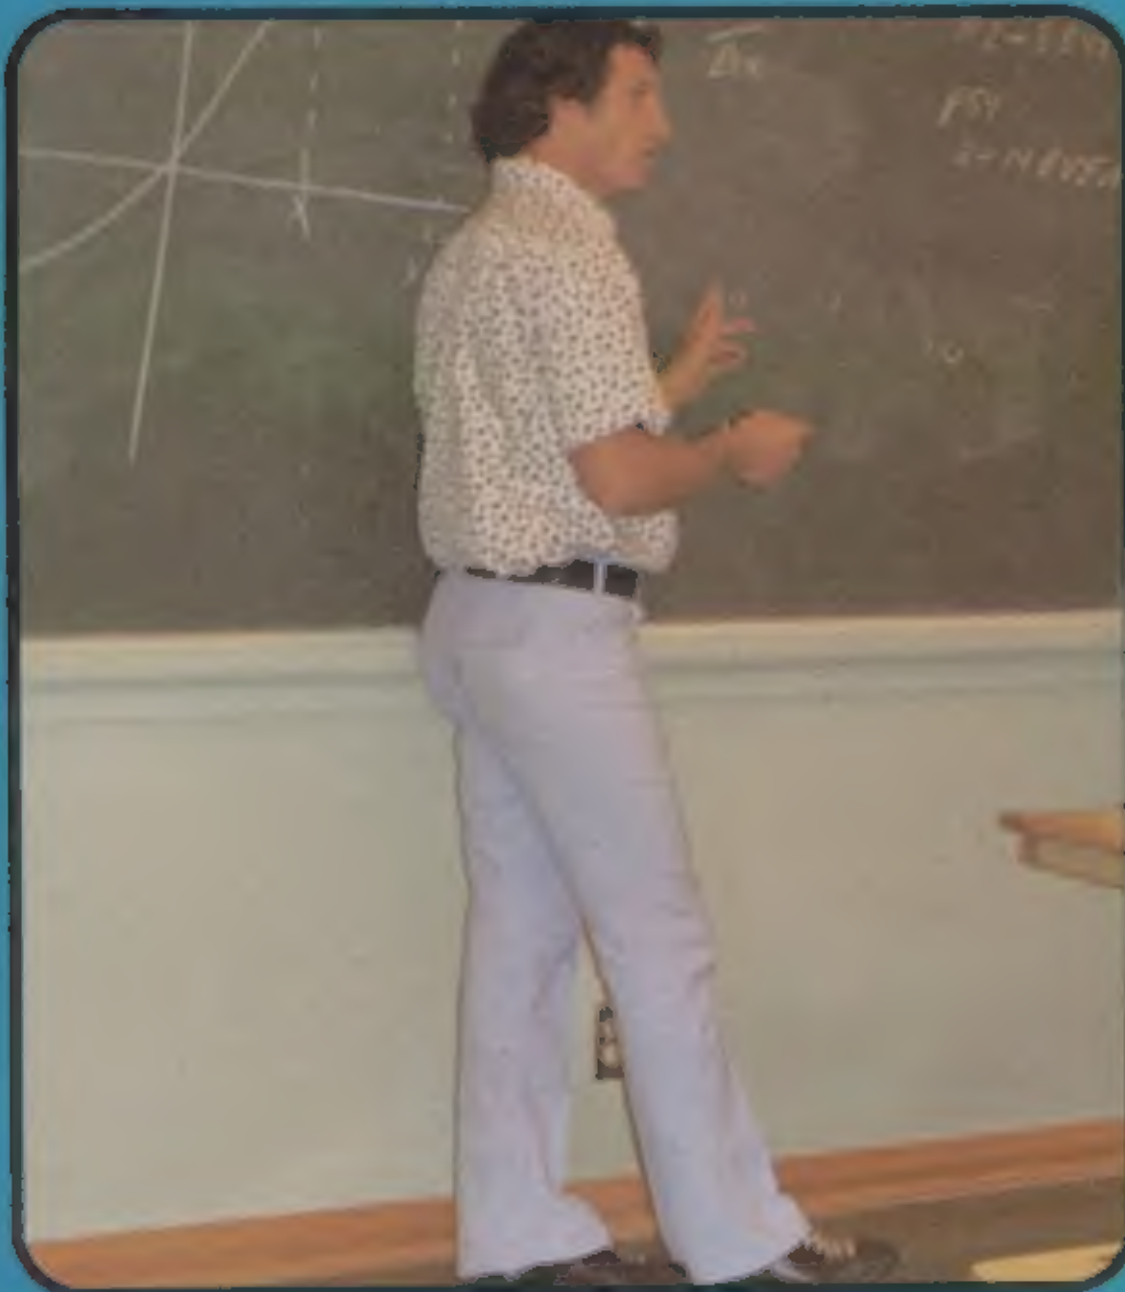

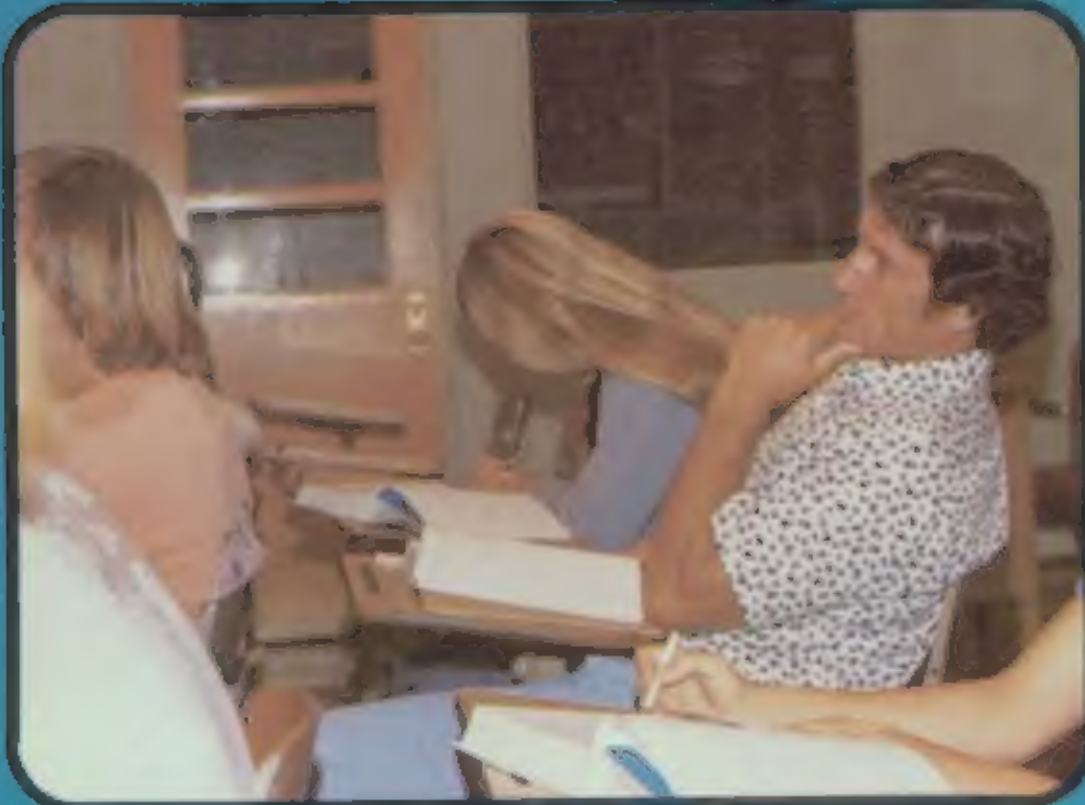

To You We Dedicate . . .

"Can you help me with this math problem, Coach?" "How about going sailing, Coach." "Hey Coach! See ya at the football game tonight!"

Perhaps the best way to describe this man would be to say he is a man of service. He serves students in his math classes as well as those who are not in his classes but need some extra guidance. He has served in the past to make ECVHS a school well-known for its wrestling teams. And most important; he serves as a friend who is always ready to give a smile.

He is often active in extra-curricular activities. It is not unusual to see him standing in a crowd at a sports event, sitting in a seat at a drama production, or present at a school assembly. As you can see it is not to just any man we have dedicated this 21st edition of the LEGEND but to a special person. Thank you Mr. Winn for being both a teacher and a friend. By the way, "The answer is 'k', Coach."

When In The Course

The Uprising of the Braves

Braves' uprising was the upperclassmen's way of welcoming the incoming freshmen. The freshmen were dressed in gunny sacks and cheered while the upperclassmen decided whether or not to accept them into the student body. Some freshmen tried to escape the initiation but a few mighty seniors dragged them back to their fellow classmen. During lunch for the first week of school, freshmen, sophomores, juniors and seniors competed for the class spirit trophy in events such as the three-legged race, the egg throw, the watermelon-eating contest and the tricycle race. The climax came when the seniors once again demonstrated their superiority, accumulated the largest amount of points and won the spirit trophy.

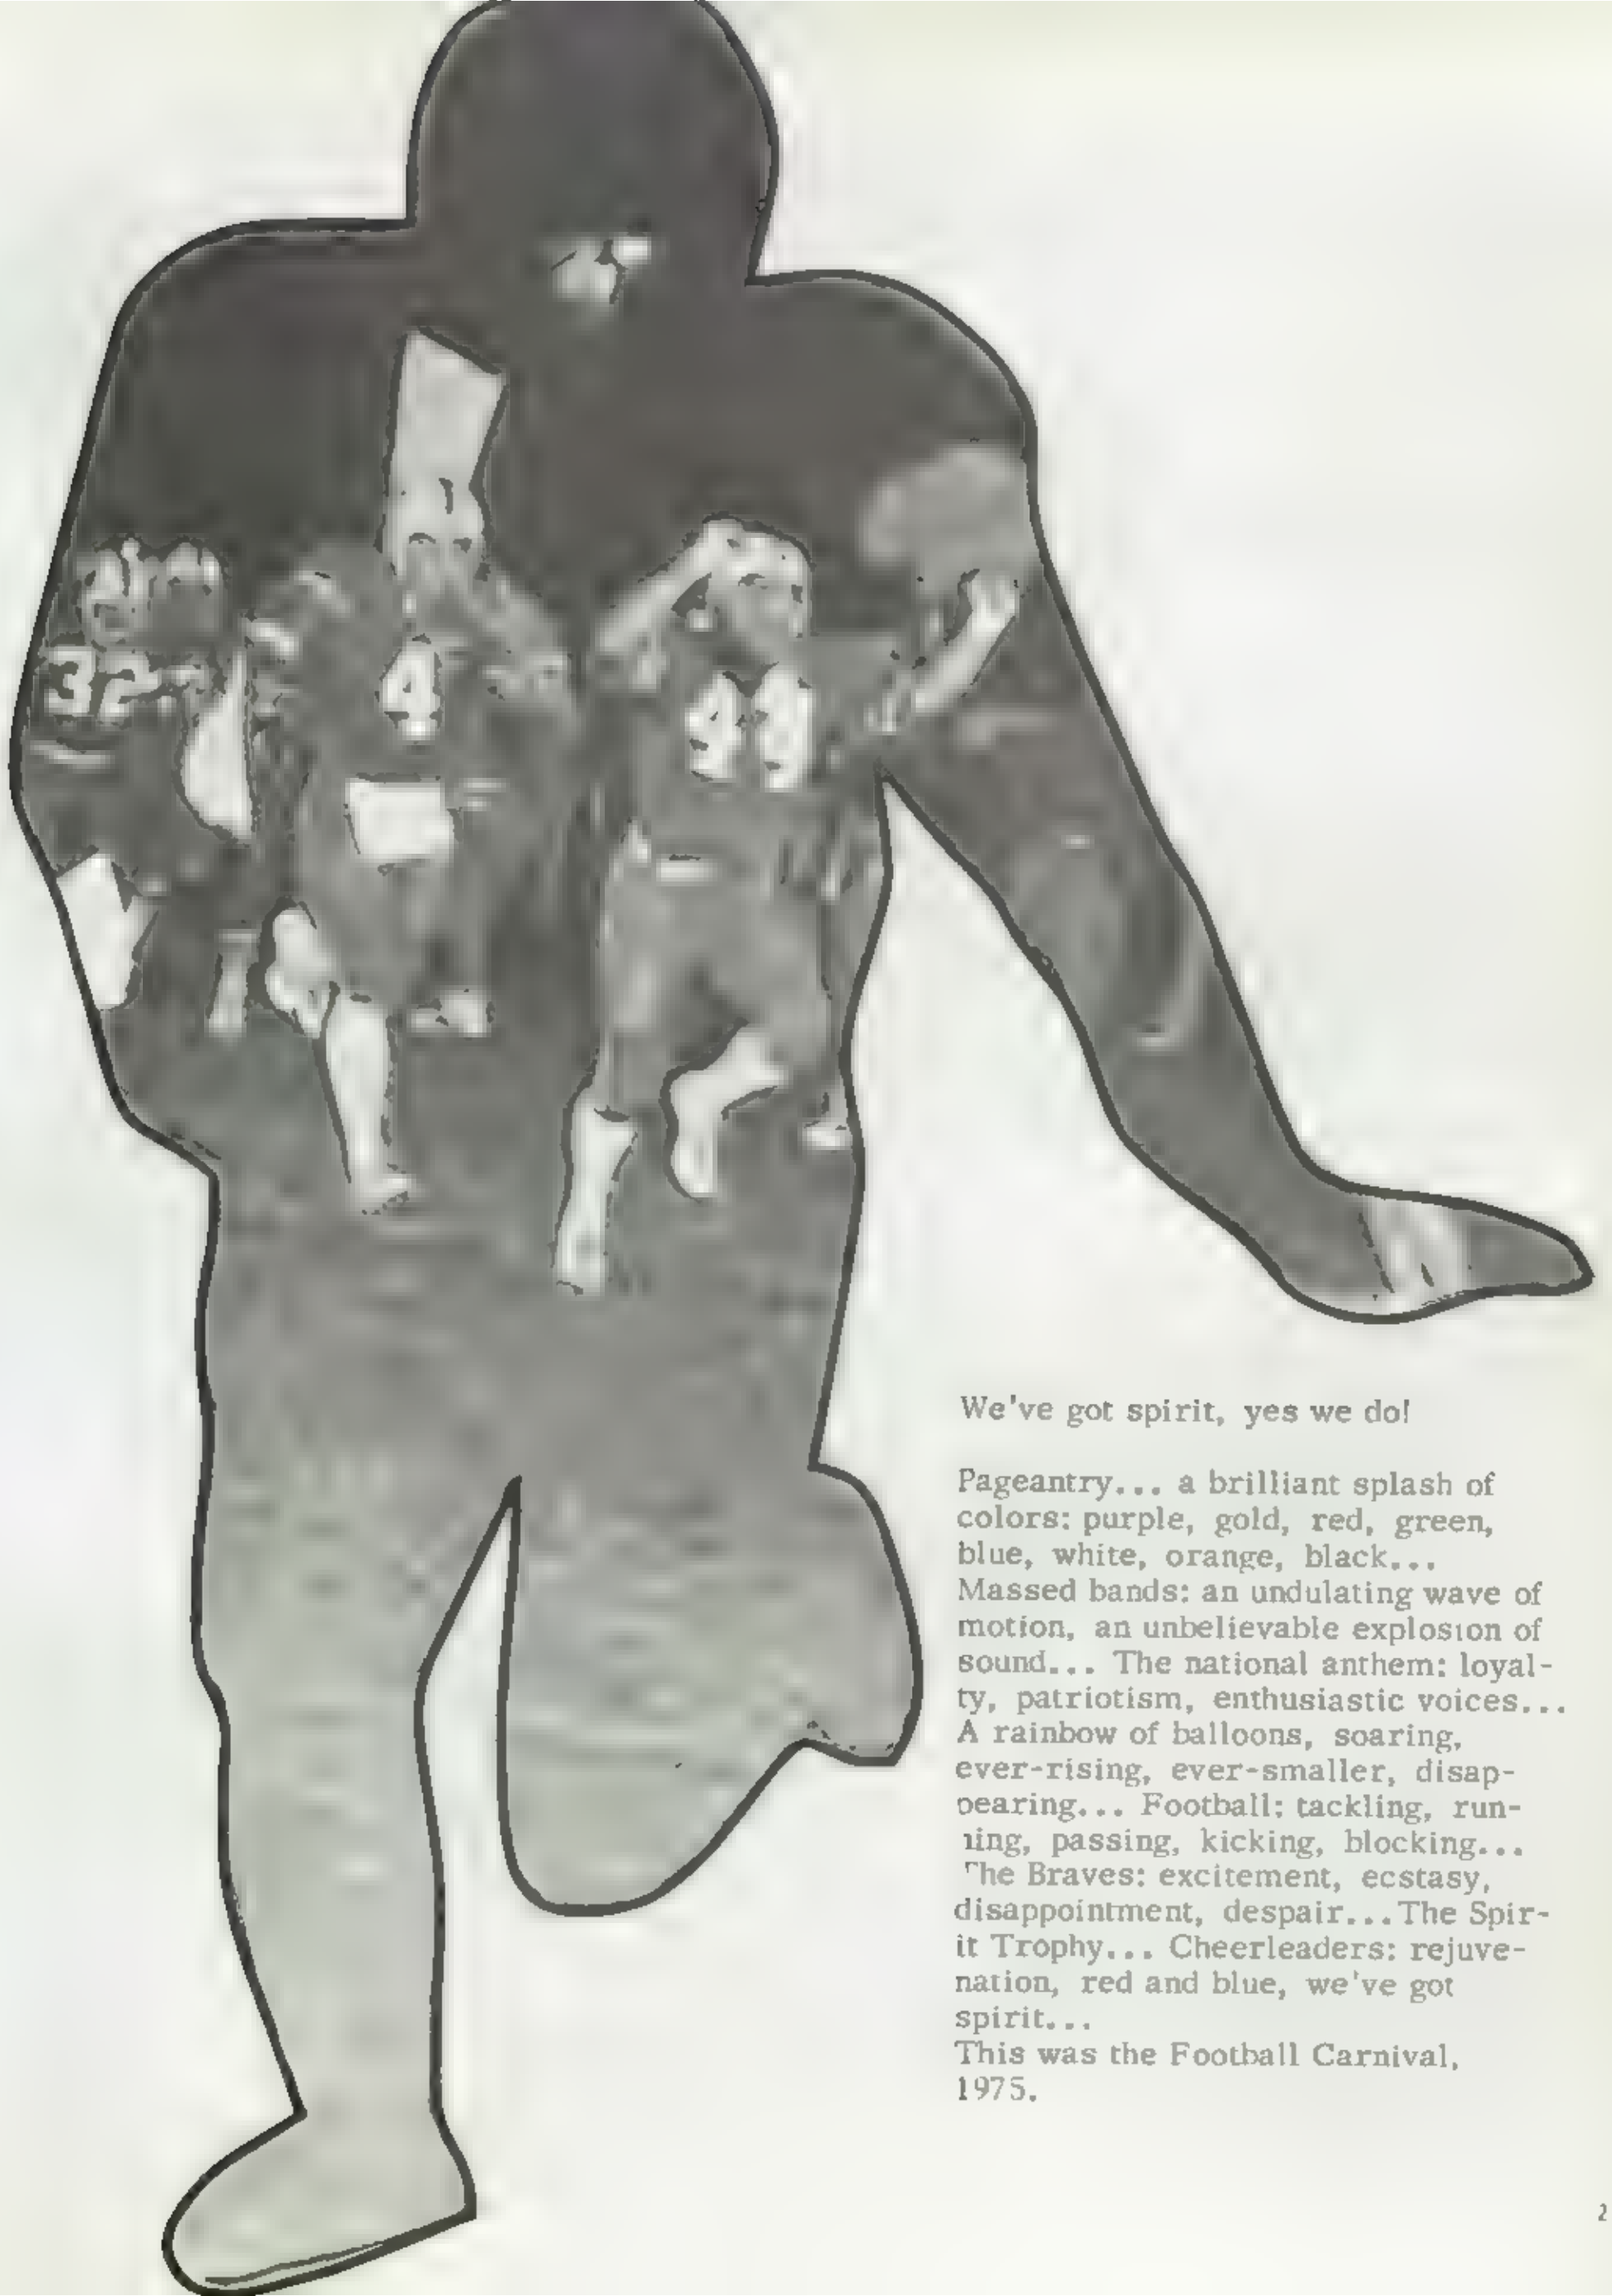

Football Carnival

WE'VE GOT SPIRIT YES WE
DO!

We've got spirit, yes we do!

Pageantry... a brilliant splash of colors: purple, gold, red, green, blue, white, orange, black... Massed bands: an undulating wave of motion, an unbelievable explosion of sound... The national anthem: loyalty, patriotism, enthusiastic voices... A rainbow of balloons, soaring, ever-rising, ever-smaller, disappearing... Football: tackling, running, passing, kicking, blocking... The Braves: excitement, ecstasy, disappointment, despair... The Spirit Trophy... Cheerleaders: rejuvenation, red and blue, we've got spirit... This was the Football Carnival, 1975.

This year's Performing Arts production, "The Fantastics", was a musical review taken from a Broadway hit of the 60's. Tom Hobson and Mona Rocchio played the lead roles in this modern satire of "Romeo and Juliet".

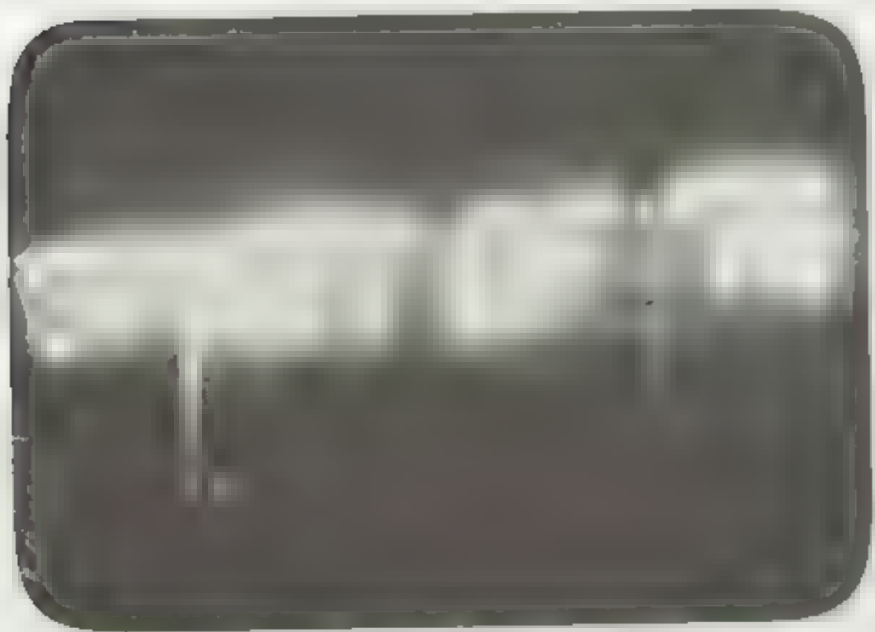

Drama's Fantastic!

"1776" became the theme for our Homecoming this year. We began the week with the Seniors selecting the court of Belinda Bird, Laurel Holmes, Judy Jahries, Li-An Leonard, and Amanda Sperry. Girls' League sponsored an Alumni Tea which brought many of the students from years past to revisit our campus. The week ended with an exciting assembly with featured guests such as "Sheik Streshly" and "Hot-Legs Heaton." And if at all possible, Homecoming Night was twice as exciting. After the announcement of the Queen, a spectacular display of fireworks was put on by A.S.B.

Striking a Note

Long before the spectators see the colors of red and blue, they can hear the Braves' Marching Band. Marching to the strains of March "Grandioso", this year the band performed in such places as Artesia, West Arcadia, Long Beach, Camarillo, and our own Mother Goose Parade. The Braves' also participated in San Diego Band Night, sponsored by San Diego State University, and presented a spectacular program at the Band Jamboree in Aztec Bowl.

Drill Team Officers Keep in Step

Long hours of practice, Friday night half-time shows, and memorization of routines become an important part of the lives of the girls, who as a group, form the El Cajon Valley High School Drill Team and Banner. With a group twice as large as last year, they accompanied the band to many parades. This year's Drill Team was the first ever to be invited to San Diego Band Night.

My name is Klaus and I'm from Germany. Over here I have had the possibility to take subjects that are not taught in German schools like agriculture, guitar, and diving. Here you choose six subjects on your own, and you will have each subject every school day. Not so in Germany. There it's not only six of them, it is up to fourteen different subjects. The teachers here are like advisors. Someone who helps you solve a problem, a person that shows you how to work on something on your own. People here accept more easily and much faster newcomers like me. Many people tried to help me or just to speak to me. This is a new experience for me. I don't know out of what reason this comes, but I like it very much!

Hi! I am Susan Petersen from Denmark. In one year I have been a foreign exchange student here in this school. I must say that I have had one of the best experiences in my whole life. I want to thank all my teachers and all my friends for the way they have treated me. I hope that all of you that get a chance to go to Europe, will take a trip to Denmark and visit me. Thanks to everybody and especially to the woman Betty Cottrel, who dared to sign up for being my mother for a year. Hope you all will have a pleasant future. I want to thank my American family, the Breese family, for the great year and all the new experiences they enabled me to have. I also want to thank the International Club and all my friends I made this year. I certainly will come back to this country and invite all my friends here to come and visit me and see Holland.

Girls' League Aboard Another Great Year

From Left to Right: Lois Accardi, Connie Garrison, Brenda Norther, and others.

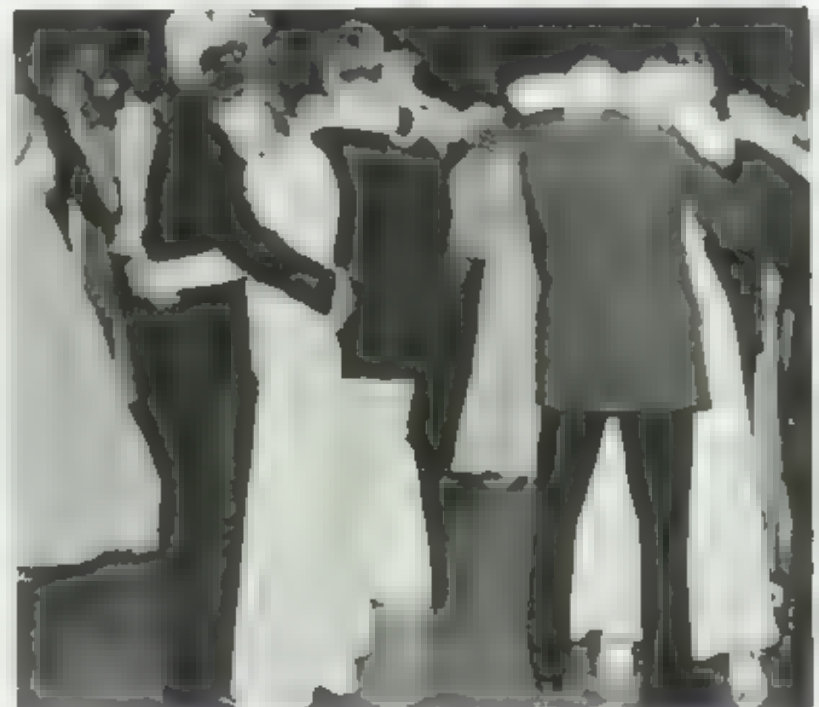

Girls' League launched their year with a cargo full of activities and their sails full of spirit. The crew worked hard to make their activities a success. Thanksgiving giving, Easter Baskets for Angels Unaware, our Alumni Tea, Powder Puff Basketball and the most memorable event, the Snowball, were some of their successes this year. Active, spirited and successful... this was Girls' League 1976.

Campus Life Lives

Campus Life is a gathering of friends, a meeting of strangers, a time for contemplation, and a time for fun. Attending a Campus Lite meeting can only raise the spirit.

International Club Joins Hands With the World

The International Club raises money to help bring A.F.S. students to ECVHS and encourages friendly relations with foreign cultures.

Maids for the Mats

This year the mat maids have been through a few changes. One of the changes is their new advisor and coach of the wrestling team, Coach Iakunashi, who believes that the girls are part of the team. The uniformed girls publicize matches, keep score, and cheer our wrestlers on to victory.

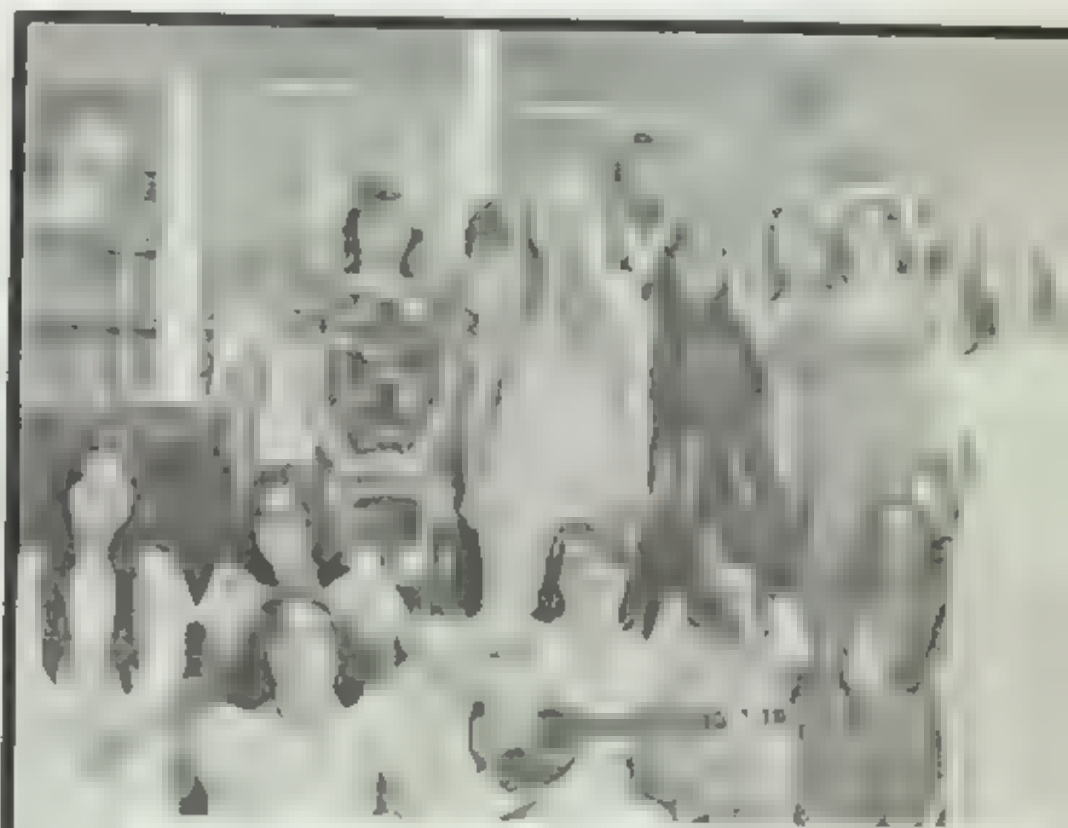

Action Club Moves

The "Good News" Singers

The Action Club was started this year to help the elderly people in our community. The students went into homes and helped meet the needs of senior citizens.

The Gospel Group, created by Mr. Gomez, is a new addition to our school this year. These students got together and sang gospel songs after school and gave occasional concerts.

Radio Club - Turn on—Tune in

The Radio Club contributes to the school by setting up the P.A. system at our school assemblies. Mr. Long (advisor) helps the students to obtain a Ham-radio operators license, and makes modern shop facilities available.

Sagacious Scholars Score

The purpose of C.S.F. is to stimulate interest and foster pride in high standards of scholarship, encouraging future education for highly qualified people. The earning of ten points; A=3, B=2, C=1, makes a student eligible for C.S.F.

Let the Son Shine in

The new Christian Club gives everyone an opportunity to learn more about Christ. It is a time when all can sit together with leadership from Mr. Duff and other students in the club and openly discuss the Bible and other matters of importance in their lives.

Peer Counseling Starts at E. C. V. H. S.

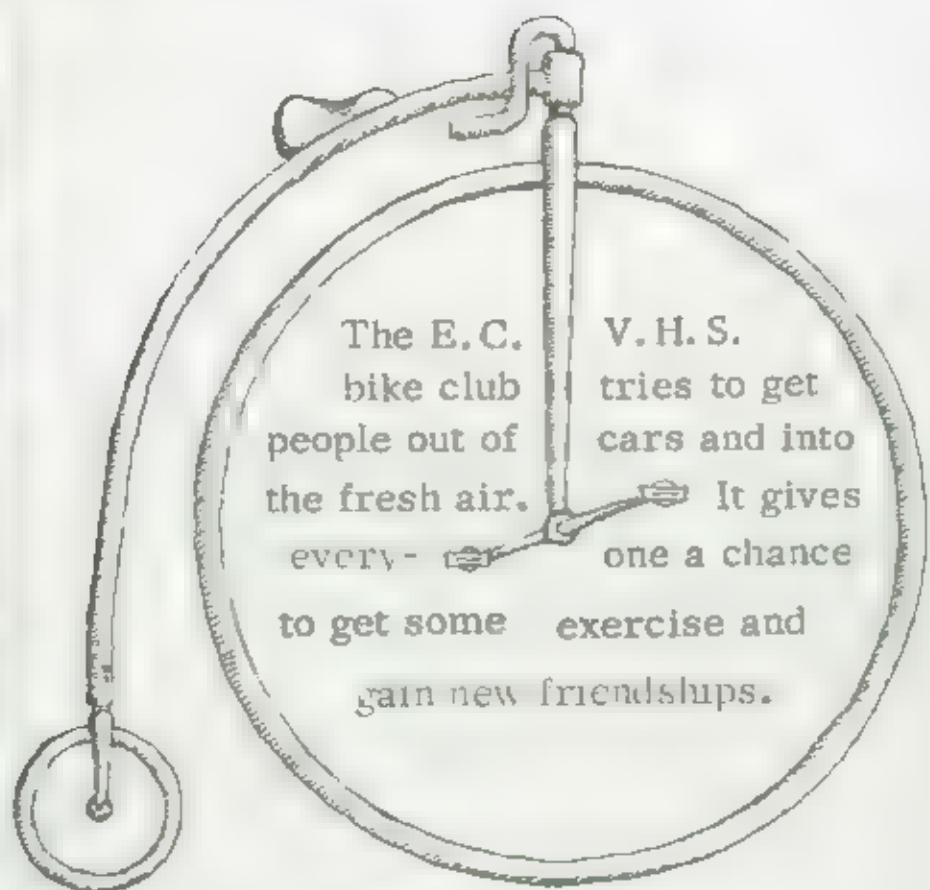

This year saw the beginning of a new peer counseling club. The students involved learn the skills of counseling, enabling them to communicate with fellow students who are reluctant to speak to adults on campus.

Senate Council on Campus

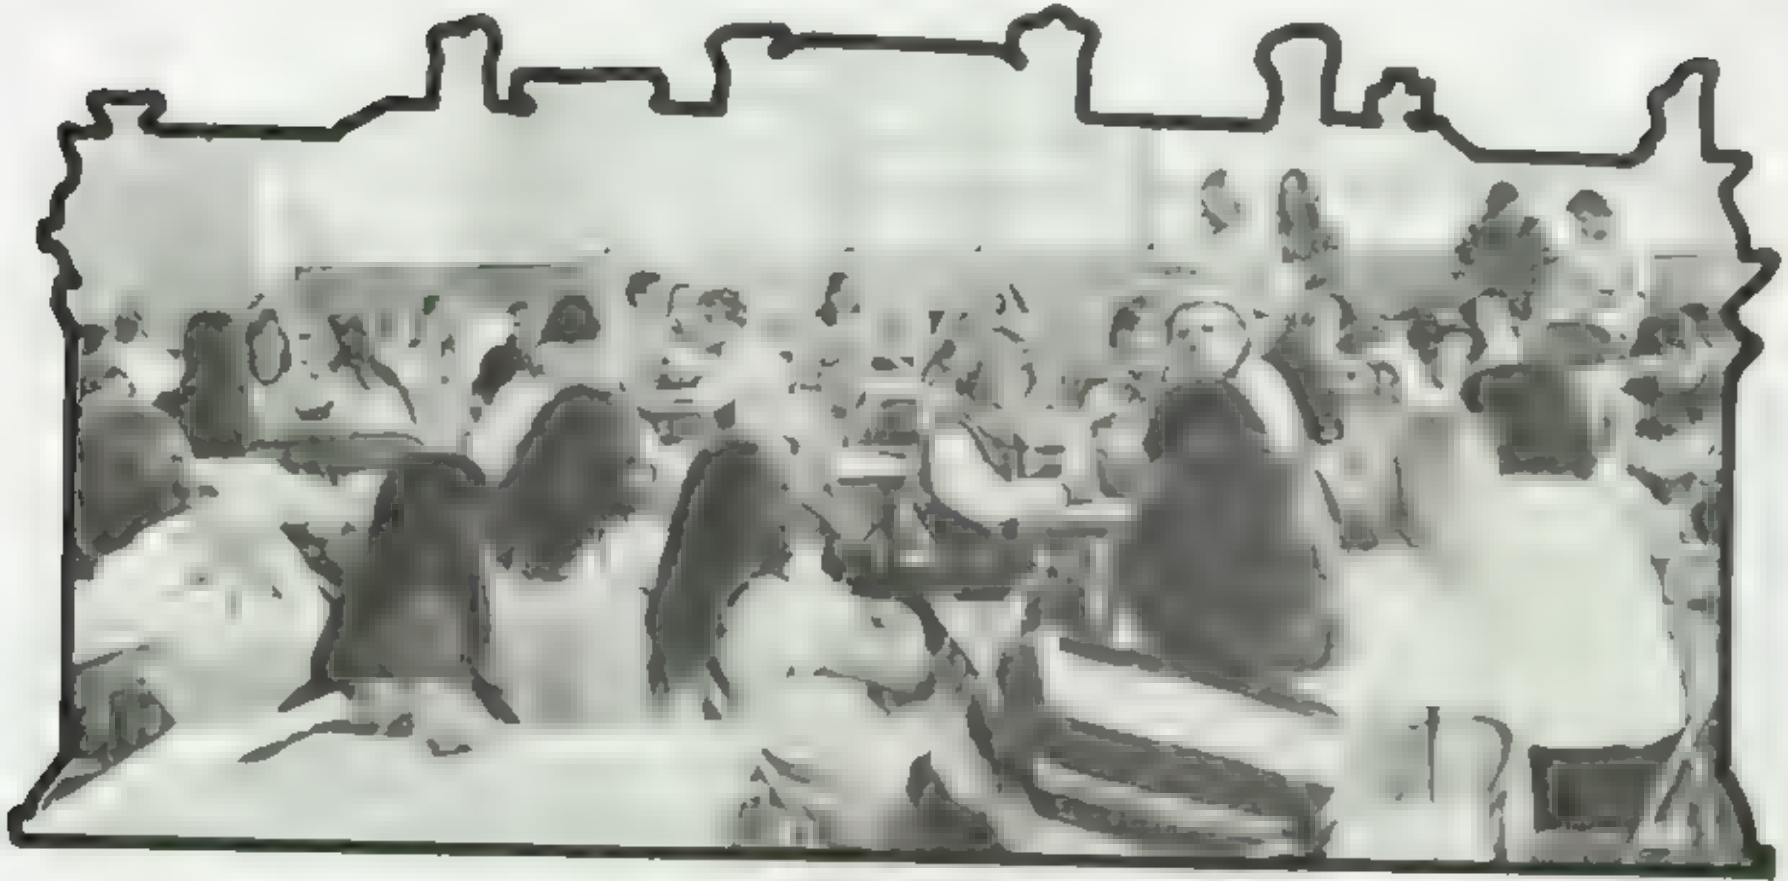

The Senate is a meeting of the top leaders on campus. Their decisions affect our activities on campus and the entire student body. Members consist of representatives from each club and organization.

Braves' Chieftans Direct

Dr. William Streshly - Principal

Ben Amador - Administrative Vice Principal

Our Tribal Affairs

This year we saw change come to the Braves' administration with the addition of Mr. Art Pegas to the Vice-Principal's office, joining Mr. Ben Amador and Mr. Darrell Gould in sharing those duties. Mr. Pegas also advised ASB as part of his administrative responsibilities.

The administrative staff continued under the leadership of principal, Dr. Bill Streshly who pursued his stated goals of working for the improvement of all ECVHS students in reading and mathematical skills.

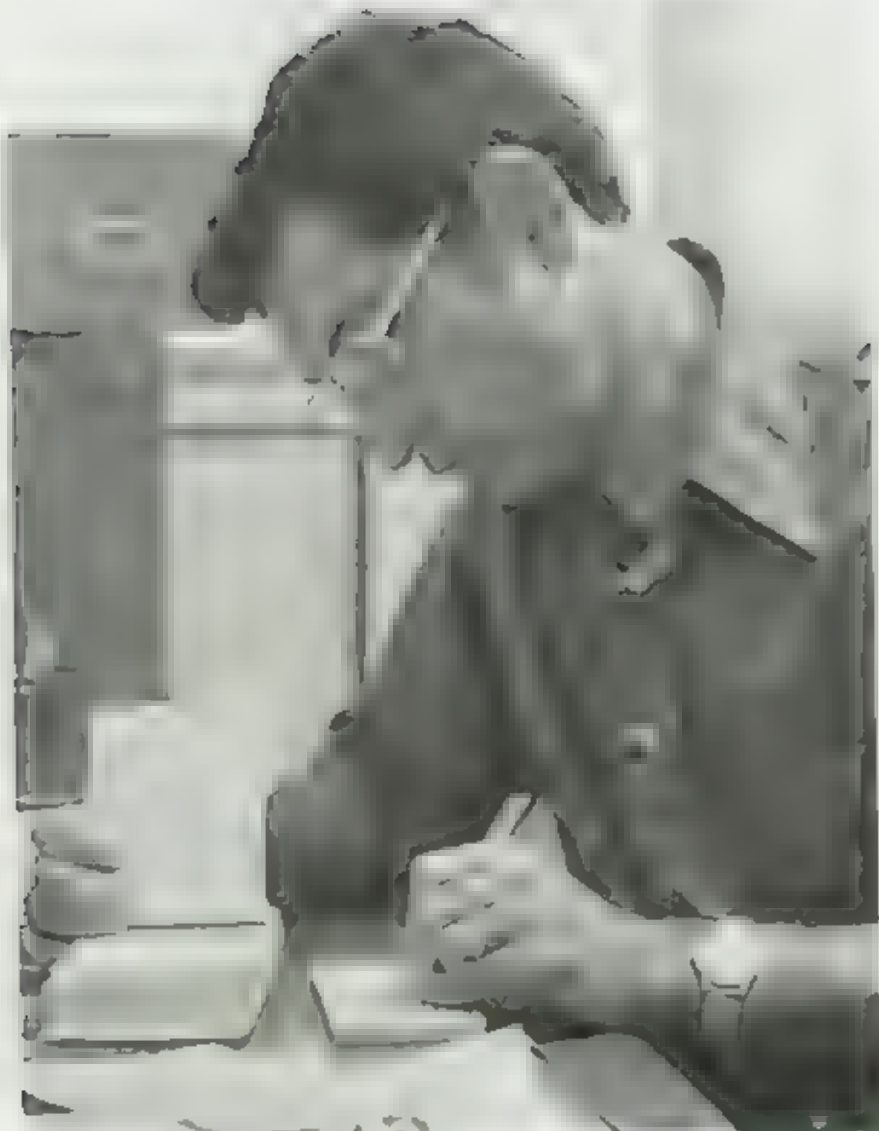

Darrell Gould - Vice Principal, Counseling and Guidance

Arthur Pegas - Vice Principal, Student Services

Counselors Lend

Our counseling staff consists of five dedicated people who worked many hours to assist our student body. Jolly Mr. Rogers, the ever smiling Mrs. Kirchman and the hustling Mr. Gross were joined this year by the winning team of Mr. Foster and Mr. Castro, who when last at E.C.V.H.S., coached the 1965 Braves' CIF football squad. Mr. Duff continued to provide students with work experience from his office in the newly-located Career Development Center. Rounding out the student services staff was Mr. Skoor, school psychologist.

A Fond

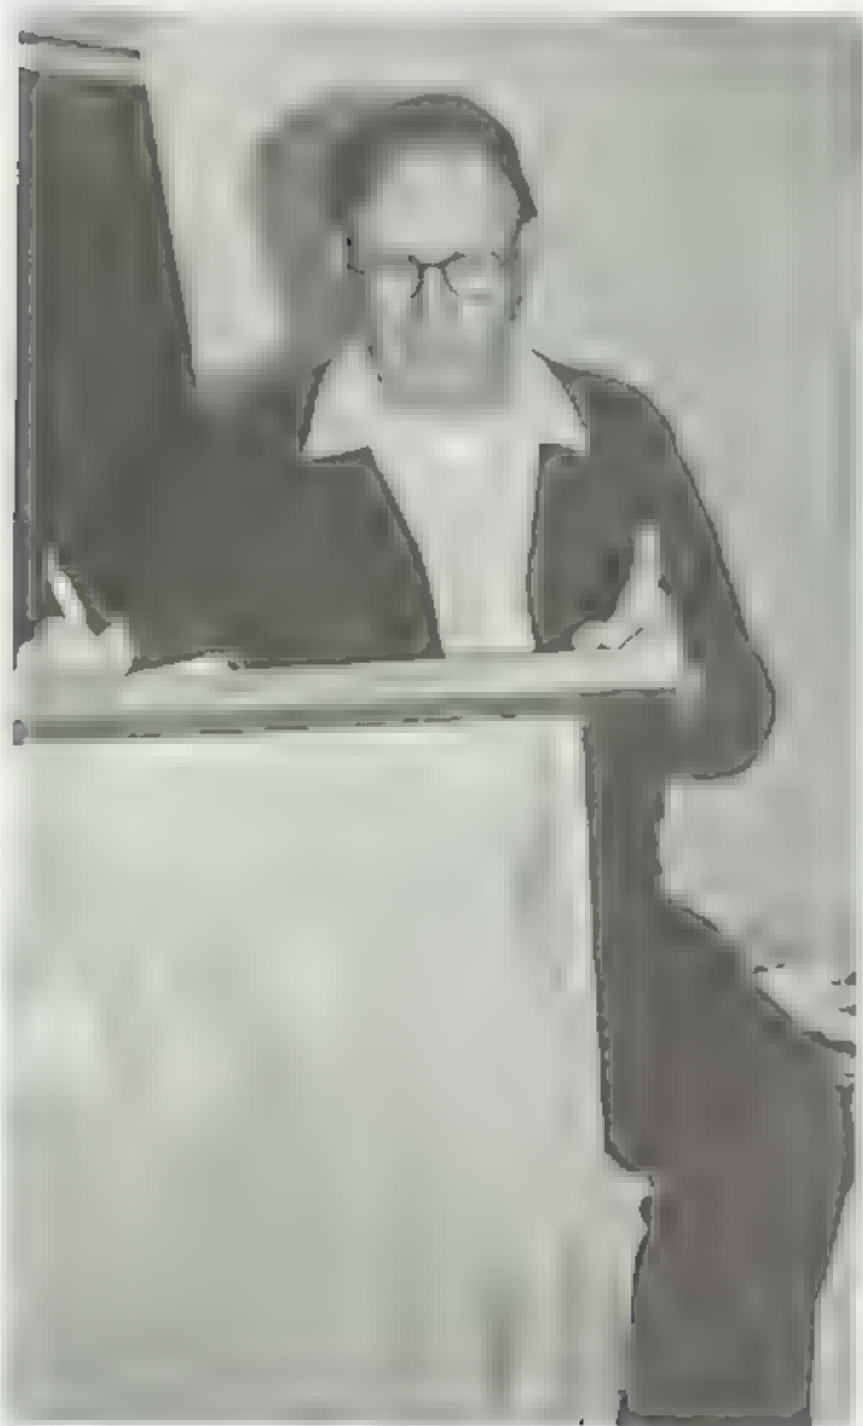

This year Mrs. Hirsch completes a thirty-four year career in teaching. She has been guiding the students of El Cajon Valley High School in homemaking skills since the school first opened in 1955. Mrs. Hirsch hopes to travel and finish her many craft projects. We wish you well Mrs. Hirsch, in all your future plans.

Farewell

Mr. Bonwell has spent a long and rewarding career in the Grossmont Union High School District and at El Cajon Valley High School. For the past seventeen years he has helped to develop and create a sense of individuality among his Social Science and photography students. The end of this career marks the beginning of a new one for Mr. Bonwell. His future plans include taking pictures of American-made products that are used abroad, while touring the world on a freighter. We wish you luck Mr. Bonwell, in all that's ahead of you.

People Helping Other People

We have a very unique group of students on our campus. These people are the Trainable Mentally Retarded. They are taught to become helpful citizens and to live semi-independent lives.

They are also trained in areas of refined skills, commercial cooking, and animal husbandry. These people can add something special to our time at El Cajon Valley as 170 regular ECVHS student T. A. 's have discovered this year.

of VICTORY...

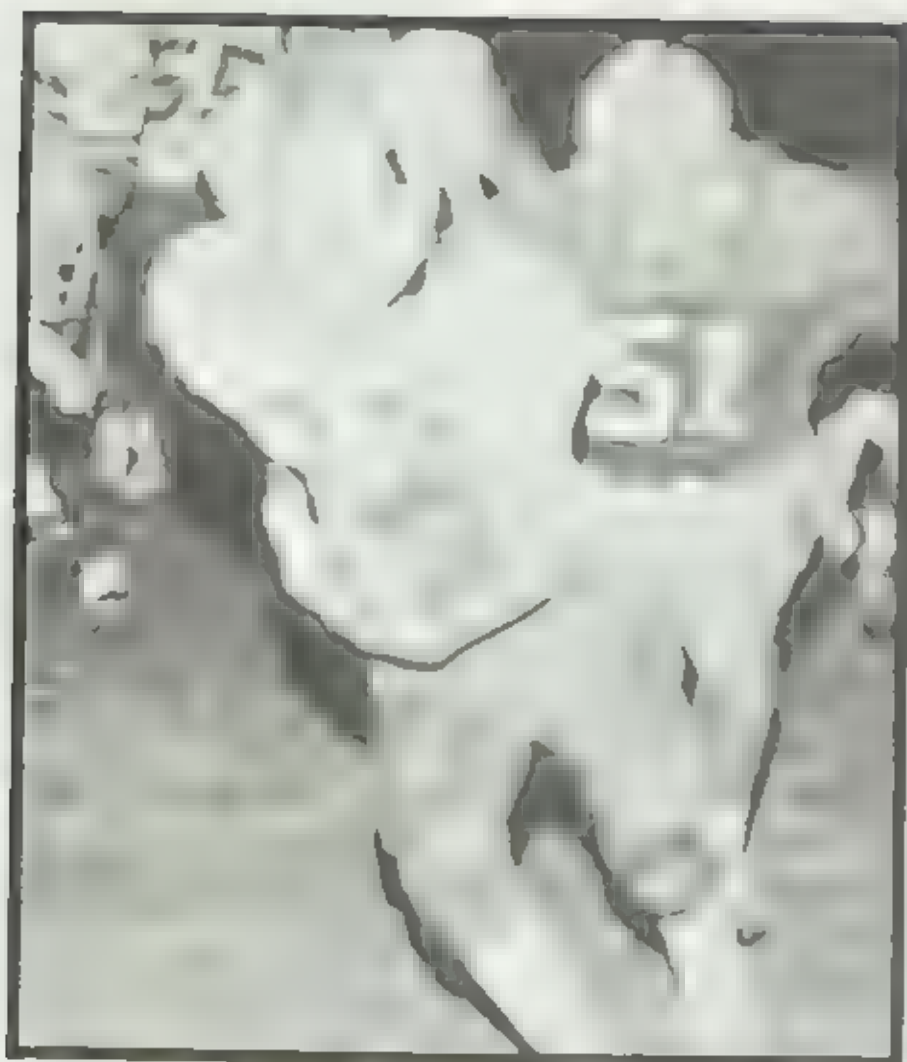

Varsity Football's Goal—

“Touchdowns”

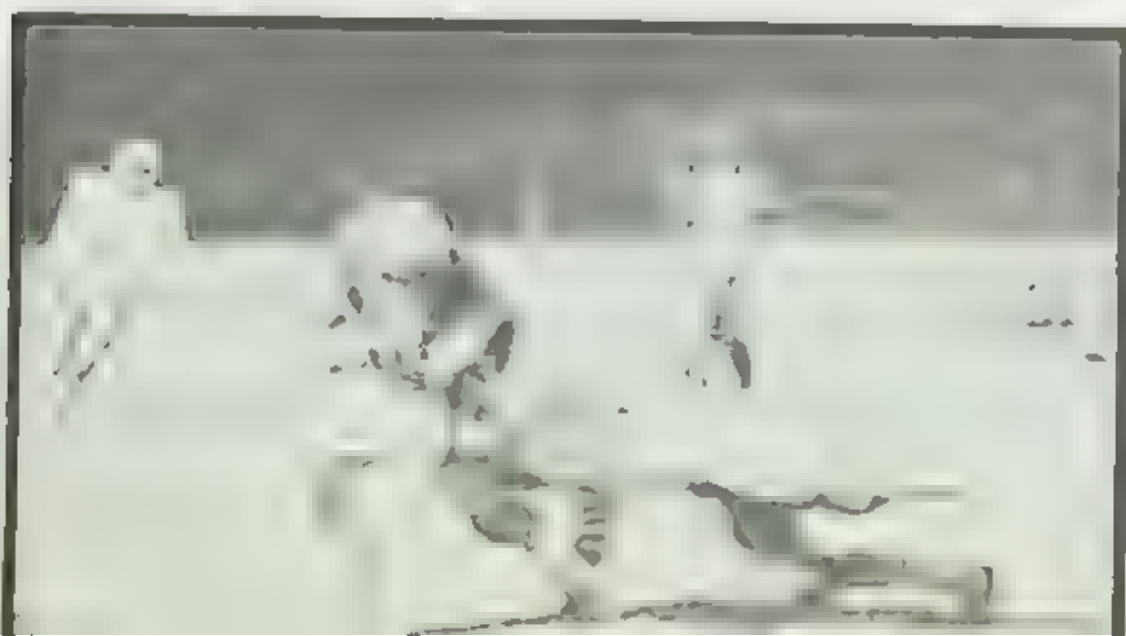

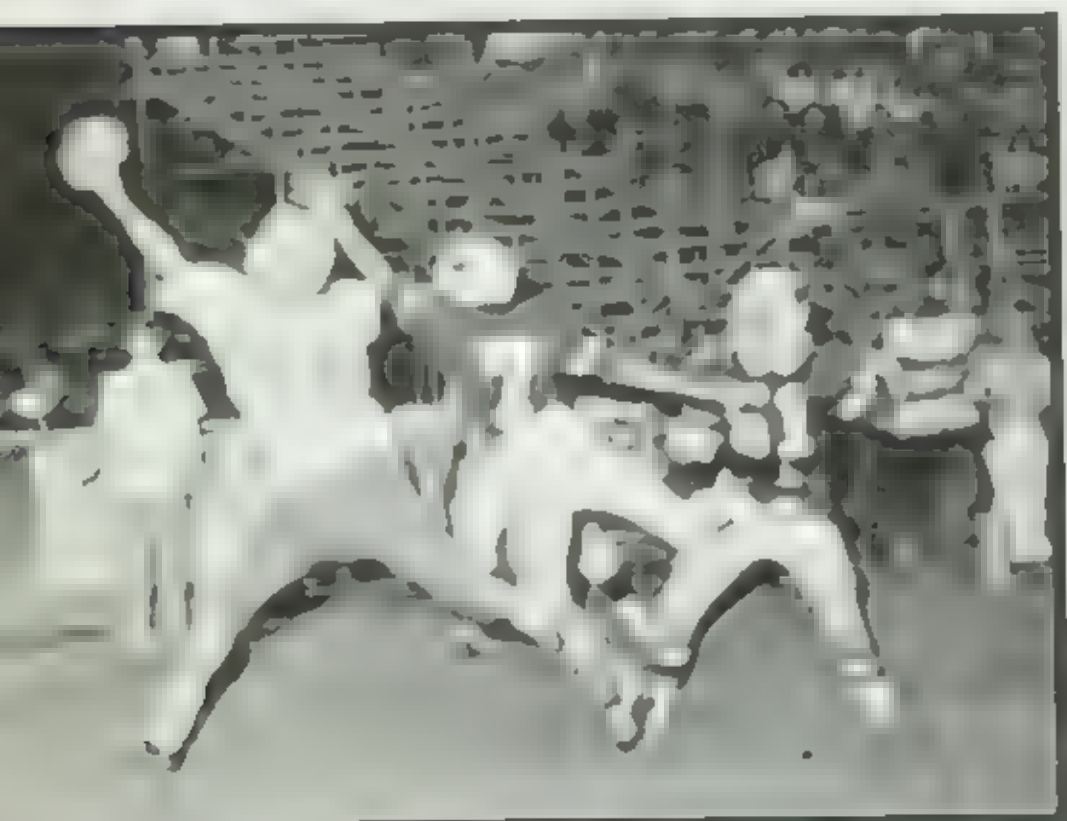

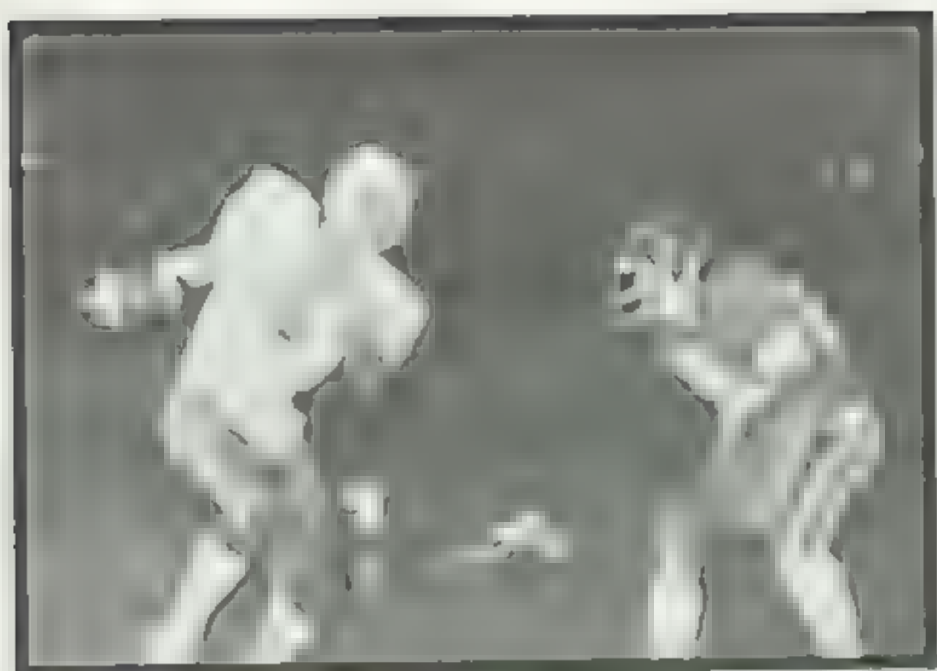

The 1975 Braves' Varsity football team set out to defend their Grossmont League Championship this year and came within one game of succeeding in their task. For the second year in a row, El Cajon reached the C.I.F. playoffs. Significant of the quality of this year's team is the fact that the only team to finish higher in the league, Granite Hills, was in the S.D. County Championship game.

Once again the Braves, led by Grossmont League Player of the Year, Mark Malone, provided a season of great entertainment for ECVHS. Who can forget the tense 21-20 victory over Grossmont, or the come-from-behind shellacking of Mt. Miguel? Combining a consistent passing attack with a devastating running game, the Braves swept to a 7-2 season record and leave a number of seasoned veterans as a nucleus for next year's team.

THE FIRST 200 YEARS

A knowledge of American history is an invitation to experience the accomplishment, drama, tragedy and hope of an infant nation struggling to grow up. Sturdy, determined pioneers hacked away at the edges of a raw continent and, with blunders and achievements alike, modeled a country with a spirited nature and a united commitment to individual liberty for every one of its citizens. Americans, great and not so great, have given us a heritage to carry on and improve upon. Farmers and soldiers, industrialists and merchants, dreamers and leaders, are all there in two centuries of progress.

But the maturing isn't finished. You'll find the boundaries of growth as endless today as when our forefathers first envisioned them. You can seek out your own destiny with the wisdom and judgement which comes with re-creation of the past. Your knowledge, dreams and industry will carry on through many more centuries of living history.

THE CHANGING NATION

Ownership of land had been just a dream to most of the colonists from feudal England. With the great expanse of cheap land opening up in the West, the dream became reality.

The Louisiana Purchase of 1803 opened the first sizable frontier in the Midwest, but the nation was not ready for it yet. It took a growing market in the East, where land was getting high-priced and scarce, and development of good transportation, to really start the frontier movement.

The Gold Rush caused hordes of settlers to take various routes to the Pacific Coast and its yellow riches. The railroads brought farmers and ranchers, along with the miners, who decided to stop all along the routes and

build their homes. Railroads were instrumental in the quick civilization of the West, bringing people in numbers so large that the resentful Indians were finally pushed back into unwanted and infertile areas.

America became a haven for immigrants from every nation as freedom beckoned them to the teeming cities of the East, the plains, and the rich west coast farmlands.

Sick of the Civil War and with their own lands divided up and lost, many Southerners set out to "begin again" in the virgin territories. "Westering" soon became the national tradition as North and South moved together toward a new life. Americanism was advanced socially by the hard-working, bare-fisted types who settled the frontiers.

Compare today's wages with a 12 hour day in the early 1800's. A man earned 50¢ a day. Of course his dollar bought more than today's. Butter 1 lb. cost 10¢. 5 lb. in the Midwest. 100 lb. of corn or bu. wheat, 25¢ bu. and a cow could be bought for \$.

Travel becoming the American tradition, you could choose train, wagon, horseback or the water. A canal ride with bed and board included averaged 3 or 4¢ per mile. And when you reached your destination, you could sit down to a 5 or even 10 course meal for 25¢ (ladies 20¢) in consideration of a "good" day.

Farmers in the early 1800's could own the famous McCormack Reaper for a mere \$100. But the Civil War increased the price of the machine. The machine became the first item farmers could buy on time payments for the sum of \$1,500.

A good suit of clothes then might \$1.95 and ladies waists (blouses) were marketed for 49c to \$3.50 with a new dress pattern priced at 15c.

...work as much as \$5.73 and up. The electric refrigerator cost \$900 — which might be enough to make you faint. The 1907 fainting couch that had cost a mere \$1.50

Your new baby traveled in the high fashion in a wicker sleeping coach (stroller) for the sum of \$12.04. If \$1,500 in 1903 you could show off in one of the first automobiles.

Ah those were the days. Some of the current prices are reminiscent of those days but at frontier prices, which were a whole different story. Hardy pioneers had to pay \$2 a pound for sugar too. And the same for a pound of coffee or pepper. These items were only 15c per pound back in civilized St. Louis. Flour was marked up 100 times for sale to the frontiersmen and during the Mexican war a bushel of wheat was as precious as gold.

THEY MADE THEIR MARK

Men and women who helped shape America's history

THOMAS PAINE, a bankrupt Quaker corsetmaker, sometimes called the "father of the American Revolution," wrote the most brilliant pamphlet of the American Revolution. His words in *Common Sense* reflected longings and aspirations that have remained part of American culture to this day.

DANIEL WEBSTER chose law as a career and went on to become one of the great orators and politicians. He was twice Secretary of State with an eye always to the Presidency which eluded him.

BOROTHEA OKE worked her entire adult life for reform of the criminal justice system. She was the first woman to be elected to the New York State Bar Association.

SEQUIYAH was an artist, writer, and inventor. He was the first English person to compose the characters. The famous "redwood trees of the Pacific" bear his name.

Chief Justice **JOHN MARSHALL** established fundamental principles of the federal judiciary. He is noted for his decision in *Marbury v. Madison*, which established the principle of judicial review.

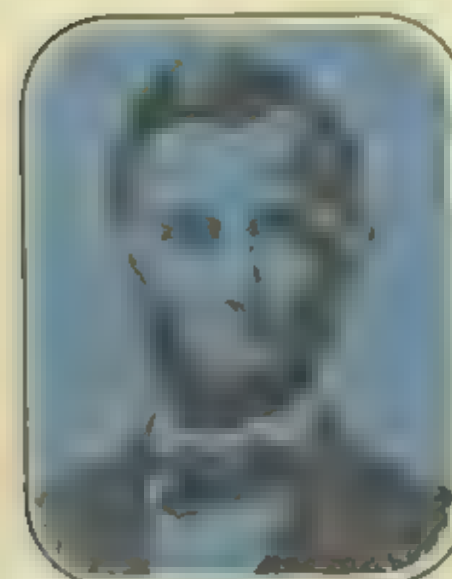

Born a slave in Maryland, **FREDERICK DOUGLASS** taught himself to read and write secretly and, at 21, escaped to freedom. He was a powerful orator and writer.

"The New Colossus" is a sonnet composed by **EMMA LAZARUS** in 1893 is inscribed on a bronze tablet at the base of the Statue of Liberty.

AMELIA JENKS BLOOMER, best known for a mode of dress she adopted during her campaign for equal rights for women, was a prominent abolitionist and reformer.

ABRAHAM LINCOLN epitomized the American ideal of freedom. He rose from a poor boy to the highest office of the land. He was devoted to the preservation of the Union.

HARRIET BEECHER STOWE wrote *Uncle Tom's Cabin*, a novel that exposed the evils of slavery. Her book resulted in one of the most powerful and controversial plays on the American stage. The Civil War was kindled by her work.

HORACE GREELEY'S admonition to "Go West, young man" was a rallying cry of the pioneers of America. He was founder and editor of the *New York Tribune*. He was best known for his philosophy of social reform and his unsuccessful bid for the Presidency in 1872.

JOSEPH PULITZER was the first journalist to reach a mass audience. His *New York World* newspaper was the symbol of "yellow journalism" with its sensationalism aimed at the common man.

NECESSITY
IS THE MOTHER OF ...

Without realizing it, England instilled in the colonists the individual purpose and ingenuity that necessity breeds. With trade goods cut to a minimum, determined young leaders of the time set out to find ways of surviving without support from the Mother Country

Agricultural methods and machines and labor saving devices were designed by our forefathers. As frontiers opened, Yankee genius had to conquer natural barriers in the wild new country, so suspension bridges were invented and methods of transportation were perfected for the purpose of opening the untamed areas. Later they sought to section off the land with the revolutionary and controversial invention — barbed wire

Cooper's 1-horsepower **Tom Thumb** train in 1830 and later, automobiles like the first Model T, and the 4-horsepower airplane ; became American modes of travel from city to city and coast to coast

Americans knew that the fertile lands of this nation would produce unequalled harvests if machines were designed to take over for man. They knew also that trade routes were difficult to travel and manufacturing would have to be done close to home. The cotton gin, textile looms, drill presses and a reaper which could cut six times as much grain as a hand scythe were some of the tools invented

Protection for themselves and for their young country prodded inventors like Eli Whitney to perfect firearms and others to work on plans for the first submarine. Young inventors like Alexander Graham Bell and Thomas Edison (called the nation's most valuable citizen) visualized machines that would light the country and open up communication with those in the far corners of the nation. The telephone, telegraph, phonograph and the first light bulb were discovered in the late 1800 s and early twentieth century. This American way of doing for oneself inspired many to become inventors in their own right. Some sought to save labor and mass-produce for profit while others envisioned not only riches, but excitement and adventure as they discovered ways to defy nature

Throughout the past 200 years the American mind has been unleashed to take whatever paths necessary to fulfill the needs. In the last half-century, the pace of discovery has been overwhelming and inventions for the taming of the universe lie in the grasp of America while the habit of "finding a way" is ingrained in its people. The seeds of industrial America were sown by these inventors resulting in today's mechanized society
